

Olalekan Oladimeji

Front - End Web Developer

With 2 years of hands-on experience and technical expertise in crafting robust and user-eccentric web applications. My journey in web development began with a fervent curiosity with how the web and internet works, which led me into the rabbit hole of front-end and back-end technologies.

On the front-end, I excel in crafting intuitive and responsive user. I have a keen eye for design and usability, ensuring that the end products not only meets functional requirements but also delights users with its aesthetic appeal and seamless interaction.

What sets me apart is my commitment to continuous learning and adaptations to emerging technologies and industry best practices. I thrive in dynamic environments where collaboration and innovation drive success, leveraging agile methodologies to deliver high-quality solutions that exceeds client expectations.

Relevant Career Experience

Practice Project | Trizent Autos Jul 2023 - Present

- Designed, developed and built a demo car website providing services to buy, rent and repair cars.

Skills used: React, Tailwind CSS, Express.js, MongoDB, Node.js, Git/Github
