

# Olalekan Oladimeji

Front - End Web Developer

With 2 years of hands-on experience and technical expertise in crafting robust and user-centric web applications, I excel in intuitive and responsive user interface. I have a keen eye for design and usability, ensuring that the end products not only meets functional requirements but also delights users with its aesthetic appeal and seamless interaction.

What sets me apart is my commitment to continuous learning and adaptations to emerging technologies and industry best practices. I thrive in dynamic environments where collaboration and innovation drive success, leveraging agile methodologies to deliver high-quality solutions that exceeds client expectations.

## Relevant Career Experience

### Geegpay Hackathon | Front-End Developer Jan - Jan 2024

- Built a responsive analytics dashboard running on mocked dummy data to keep track of sales report and report data through visual representation of graphs and charts.

### TalentSync | Front-End Developer (Assessment) Jan - Jan 2024

- Built a responsive landing page by following a provided Figma file design, as a skills assessment test for a Front-End developer role

### College CGPA Calculator | Front-End Developer Sept - Sept 2023

- Built a university standard CGPA calculator designed after the CGPA grading system of the University of Ibadan. The website has a feature to remember old CGPA calculations and to also allow users to load up old CGPA calculations onto the screen

### Trizent Autos | Front-End Developer Jul 2023 - Present

- Designed, developed and built a car website providing users with the abilities and services to buy, rent and repair cars. Integrated a custom back end into the website using Node.js + Express.js. Database is maintained with MongoDB.

### GetLinked.AI | Front-End Developer May - May 2024

- Built a responsive landing page with simple routing to other pages, developed after a Figma file as an entry project for a hackathon. Integrated a simple Fetch API call to submit customer feedback and handle user registration.

### Professional Certification | CS50x Sept 2022 - Apr 2023

- Embarked on an enriching educational journey by engaging with course materials and solving challenging problems that equipped me with the fundamental and foundational knowledge and skills in Computer Science and programming.
